The debt redeemed, exclusive of Savings Bank withdrawals, amounted to $1,905,964.10.

On the 30th June last the total amount at the credit of the depositors in the Savings Banks was $39,400,026.16, or a reduction $1,612,438.88, as compared with the balance held at the end of the previous year. The interest allowed to depositors for the year amounted to $1,348,525.26, and if this amount is deducted from the balance at the credit of the depositors it will be found that the excess of withdrawals of cash over cash deposits was $2,960,964.14.

Owing to the withdrawals from the Savings Banks, and to meet the redemption of debt, a further temporary loan of £1,200,000 was effected in England.

The Dominion notes in circulation increased $818,424.52, and on the 30th June the total outstanding was $16,176,317.23.

The net debt of the Dominion on the 30th June last was $237,808,030.51, an increase of $275,818.74 in the year, accounted for as follows :—

On pages lxviii and lxix will be found a new table, accounting for the increase of the debt from 1st July, 1867, to 30th June last, of which the following is a summary :—

Debt increased by—		
Expenditures on Railways, Canals, other Public Works, and the Canadian Pacific Ry.	$150,242,431 40

Consolidated Fund credit transfers	5,763,155 38	
Receipts from premiums on Loans	555,971 92	
Receipts from Dominion Lands	4,275,526 11	
Refunds from sales of Public Works	13,804 38	
		$ 74,676,112 38
Net increase		$ 162,080,389 14

The rate of interest paid on the gross debt averaged for the year $3.35 per cent., against $3.37 for the previous year. The net rate of interest paid on the debt fell from $2.99 to $2.93.

During the year silver and copper coinage to the amount of $110,000 was procured for the Dominion through the office of the High Commissioner for Canada, and the profit thereon amounted to $34,821.78.

In my last report I stated "I am glad to report that since the issue of the Public Accounts of 1888-89 a great advance has been made towards the settlement of the long outstanding accounts between the Dominion and the Provinces of Ontario and Quebec." I am given to understand that progress has been made towards the appointment of arbitrators to settle the various points in dispute, and I really hope that in 1892 steps will be taken to bring the matter to a conclusion.

The cost of the management of the Department during the year was as follows :—

Minister's salary	$ 7,000 00
Salaries of staff	51,764 88
Expenditure through Charges of Management	4,549 50
Contingencies	7,757 27
	$71,071 65

As compared with the year 1880–81, the reduction of cost is $4,861.78, divided as follows :—

	1880-1.	1890-1.	
Minister's salary	$ 7,000 00	$ 7,000 00	.....
Salaries of staff	52,058 28	51,764 88	$ 293 40
Contingencies	10,649 65	7,757 27	2,892 38
Expenditure through Charges of Management	6,225 50	4,549 50	1,676 00
	$75,933 43	$71,071 65	$4,861 78

A glance at the tables on page lxxxiii, which give to some extent the volume of the transactions of the Department, will show that during the ten years, although there has been a reduction of the cost of management, the work of the Department has been constantly increasing in every branch.

In continuation of this subject I append a statement showing the cost year by year of the Department, together with the number of members of the staff. The statement is interesting, in view of the criticism of the public service, its management and its duties. I may further add that during the current year there has been another reduction of the staff, and that the number at this date is thirty-four as against thirty-eight in 1890–1 :

Year.	No. of Staff.	Votes.	Expenditures.
1881-2	41	$55,675 00	$52,694 90
1882-3	44	58,220 10	54,377 78
1883-4	41	58,325 00	56,034 19
1884-5	41	57,659 16	54,692 92
1885-6	44	57,386 51	55,427 57
1886-7	38	53,067 50	51,129 78
1887-8	40	53,770 48	52,383 41
1888-9	38	53,980 00	52,090 71
1889-90	38	53,597 50	51,347 50
1890-1	38	52,890 00	51,764 88

I have pleasure in again reporting that in the execution of the business of the Department I have received from the members of its staff prompt and willing assistance.

I have the honour to be, Sir,
Your obedient servant,

J. M. COURTNEY,
Deputy Minister of Finance.

At the close of the fiscal year the balance at the credit of the depositors in the Post Office and Government savings banks amounted to $58,437,988.70, an increase of $2,389,029.64 over the balance held on June 30, 1901 ; part of this increase, $1,662,258.32, represents interest added to the various accounts, and the remainder, $726,771.32, the excess of receipts over withdrawals.

Dominion notes to the amount of $32,780,387.05 were outstanding on June 30, 1902, as against $27,898,509.05 on June 30, of the previous year, or an increase of $4,881,878.

The demand for the $1 and $2 Dominion notes still continues, as will be seen from the following table showing their circulation at the end of September and October for each year from 1894 :

—	1895.	1896.	1897.	1898.	1899.	1900.	1901.	1902.

Investments on account of the sinking funds of the various loans were made during the year to the amount of $2,569,380.59, making the total amount held on this account on June 30, $50,873,999.86.

The net debt of the Dominion at the close of the fiscal year was $271,829,089.62, or an increase of $3,349,085.93 over the previous year, the details of which are as follows :—

Capital expenditure on railways, canals and public works, including the Canadian Pacific Railway		$9,408,102 66

The average rate of interest paid on the gross debt for the year was $3.09, as compared with $3.12 in the previous year, and the net rate of interest paid has fallen from $2.60 to $2.57.

With regard to the unsettled accounts with the provinces of Ontario and Quebec, since my last report a decision has been given by the Judicial Committee of the Privy Council on the subject of the Common School Fund. A case was prepared and submitted to the Exchequer Court dealing with the points of difference in the account between the province of Ontario and the Dominion. Judgment has recently been given thereon. Steps will be taken to follow the same course with the differences now existing with the province of Quebec. When these are settled, the only item remaining to be adjusted by the arbitrators will be that pertaining to Treaty No. 3. It is to be hoped that efforts will be made to close that up within the next year. The whole of the unsettled accounts between the provinces of Ontario and Quebec and the Dominion arising out of confederation will then have been disposed of.

Statements are submitted showing the aggregate receipts and expenditures year by year from confederation to June 30 last, and the receipts and expenditures on account of the Yukon Territory since its organization.

A statement is also submitted giving the number of officers subject to the Civil Service Superannuation Act. The number has fallen from 2,747 in 1901, to 2,540 on June 30 last.

No interest has been received during the year on account of the following investments :—

Albert Railway Company.
Three Rivers Harbour Commission.
Quebec Harbour Commission.
Fredericton and St. Mary's Bridge Company.
Montreal Turnpike Trust.

I regret that since my report of last year the department has lost the services of two faithful officers, Mr. M. G. Dickieson, the Dominion Bookkeeper, by superannuation on account of ill-health, and Mr. E. A. Black by death at a comparatively early age. The former had a public service of twenty-eight years and the latter twenty-three years, eighteen of which were in this department. Mr. Black's demise is very much regretted. He was held in high esteem by all his fellow clerks and much respected by all who knew him.

Two officers have resigned, and an applicant, to whom an appointment was offered, on second thoughts declined the same and entered the service of a chartered bank.

I find that this is the twenty-fifth annual report I have had the honour to present as Deputy Minister of Finance. At the time of the publication of my first report, the facilities for keeping in touch with the different parts of the Dominion were very different from what they are to-day. At that time it was a matter of as much difficulty to go from the eastern part of the Dominion to the western as it is to-day to go from Ottawa to South Africa. The provinces have been moulded into one confederation. The Dominion of Canada has arrived at a stage of development that even the most sanguine Canadian of those days hardly dreamed of, and there is every likelihood that the progress of the coming years will be even greater.

It has been my pleasant duty and privilege to have taken part during the past quarter of a century in solving many public financial problems, and looking back over the period I feel it can be said that, as a whole, the department has not been unsuccessful in its undertakings.

As the business of the country increased the work of the department increased in like proportion. Some idea of this evolution may be inferred from the statement that on my entry upon the duties of the office of deputy minister the amount of Dominion notes in circulation of all kinds, large and small, was less than the circulation to-day of the notes of small denomination only ($1 and $2.) The total amount of Dominion notes in circulation has increased threefold. The deposits in the savings banks, both government and post office, have increased over sevenfold. Owing to the development of banking facilities throughout the country, in consequence of the opening up of branches of the various chartered banks, the number of deposit entries for revenue received has very largely increased. The total absolute turnover in cash of the daily transactions of the department has advanced from $85,086,954 on June 30, 1879, to $223,091,827.04 on June 30, 1902. All the work entailed by this expansion has been met without the slightest increase in the cost of the department.

It gives me pleasure to record that during my tenure of office the officers of the department have been most united in their efforts to carry on the daily work. Many changes of course have taken place in the staff. Some of the officers have died, some have gone into honourable retirement, and some have left the department to occupy positions of importance in other parts of the Dominion.

With advancing age, that necessarily prevents me taking up new financial problems, my official career must soon close. The department requires as its deputy head a

younger and more active man, thoroughly well versed in the varied features of modern finance, who shall be able to give to the head of the department that advice and assistance which the intricate and important financial questions of the day demand.

Perhaps I might be pardoned if, at the close of my career, when my remarks cannot have any reference to myself personally, I suggest for the consideration of the ministry whether, seeing the opportunities of betterment that are now presented throughout Canada to men of intelligence, good judgment and industry, by reason of the development of the resources of the Dominion, the conditions of the public service are such at present as to attract the best men. Men of this class are needed to undertake the increasing quantity of high-class work that the Dominion demands. The employment of the best class of men for the best class of work, at generous rates of remuneration, is the truest economy in the end. Resignations from the service are now of frequent occurrence, and something will soon have to be done to meet this new condition.

The selection of the officers of the Department of Finance during the time I have been deputy has been uniformly good. As a consequence the charge of its management has not increased. It can hardly be expected, however, that this can go on much further. With the prizes now offered outside to superior men, such men will be unwilling to enter the public service where, at the best, they cannot hope to obtain anything better than a moderate income. As there are vacancies to be filled, I respectfully suggest that, in the reorganization of the staff of the department, which requires immediate attention, there be considered the question of not only how to attract capable men but how to retain their services.

I have the honour to be, sir,

Your obedient servant,

J. M. COURTNEY,
Deputy Minister of Finance.

Quebec Harbor Commissioners.....	520,717 20

During the year there has been received on account of Dominion Lands $237,820.61; the amount invested on account of the Sinking Funds was $1,736,644.34, and amount of debt redeemed $3,516,091.11.

The total amount at the credit of Savings Banks depositors at the close of the year was $42,956,357.68, an increase during the twelve months of $1,585,299.45 .

The amount of Dominion notes in circulation on the 30th June last was $15,426,280.83, a decrease of $823,037.70 compared with the same period in 1888, when the amount outstanding was $16,249,318.53.

The net debt of the Dominion on the 30th June, 1889 was $237,537,041.65, showing an increase of $2,998,683.49, which is thus accounted for :—

Amount expended on Capital Account for Railways, Canals, Public Works and expenses appertaining to the North-West Rebellion.....		$4,420,313 66
Discount and expenses connected with Loan of 1888		1,322,810 47
Balance of Mennonite Loan cancelled by Act 52, c. 28		10,300 94
Sundry transfers to Consolidated Fund.....		216 40
Railway subsidies		846,721 83
		$6,600,363 30
Less—Sinking Funds.....	$1,736,644 34	
Excess of receipts over payments	1,865,035 47	3,601,679 81
		$2,998,683 49

The rate of interest paid on the gross debt during the year averaged $3.52 per cent. against $3.45 per cent. during the year ended 30th June, 1888, the increased rate being due chiefly to the fact that prior to the 30th June, 1888, a portion of the recent 3 per cent. loan had been received, upon which no interest at that date had accrued. On the net debt, however, the rate of interest decreased from $3.12 per cent. to $3.07 per cent., as a result of the increased amount received in the way of interest on investments.

The balance of the above mentioned loan has since been received, and it will accordingly be observed that the funded debt payable in London has advanced from $176,691,775.89 to $188,239,439.90. Against this an increase of $1,736,644.34 has taken place on the Sinking Funds, which amounted on the 30th June last to $22,730,298.73.

I regret that since my last report comparatively little has been accomplished towards the settlement of the outstanding accounts between the Dominion and the Provinces of Ontario and Quebec, and we are now practically in the same position with regard to them as we were a year ago. I would strongly urge that by reference of cases to the courts, or in some other way, a settlement of the principles involved be arrived at, in order that further delay may, if possible, be avoided.

The cost of the management of the Department during the year, was as follows:—

Salary of the head of Department	$ 7,000 00
Salaries of the Departmental staff	52,090 71
Contingencies	10,749 73
	$69,840 44

The profit derived from the silver coined, amounted to $52,774.21, an amount more than sufficient to cover the salaries of the staff.

I think it but right that mention should be made of the zealous and effective support I have received from the officers of the Department in the administration of its affairs.

I have the honour to be, Sir,

Your obedient servant,

J. M. COURTNEY,

Deputy Minister of Finance.
